

Update to Victoria Residents, re: Blue-Green Algae Bloom (BGAB).

Town Of Victoria held a meeting with the Town of Salmon Cove (TOSC) November 2021 & attended another in December 2021, with MP's: Churence Rogers & Ken McDonald, as well as Prov.Ministers: Steve Crocker & Bernard Davis & the TOSC to review & discuss what caused the BGAB in Forest Pond summer of 2021. Upon recommendation from both Ministers Crocker/Davis & the fact, Forest Pond is registered in the Town of Victoria, your Council has approved & submitted a cost-shared funding application to the Dept. of Municipal & Provincial Affairs to conduct a study of what caused the BGAB in Forest Pond. Please continue to check our website for more information as it becomes available: www.townofvictoria.ca
