Dec 16th Meeting Presided over by Council
Wellsley Clarke, 6 Councillors attending. It
Victoria East began by the reading of minutes
Dec 19/71 of previous meeting, after due Con-
sideration, Council Clarke moved
Swansea Rd that minutes be adopted as read.
Mon. Dec 23rd This was seconded by Counc. W Keeling
1971 All in favour & motion was Carried.
The Mayor led the meeting in a
discussion Concerning the Dump for
Garbage disposal, as this subject
was outstanding. Mr Dearborn of T. C,
had offered us temporary use of
Akeis dump, with the understanding
we share part of the grading off
Cost the Clerk was asked to Contact
the T. Clerk of that town & try to
Ascertain exactly what this entailed.
Information given was to the fact that
Cal B. is paying approx. $16 per
week to have dump graded off & they'd
probably ask us to Be responsible
for 1 week's derence? Clerk would have
to check with Council & Be sure.
Mayor then stated that the Mayor of
Clarks had expressed his opinion, that
only an incinerator for the Combined
use of the two towns Could properly
Solve the problem of G. Disposal. They
asked that we Co-operate with them in
requesting an incinerator from the Munic.
Dept. Our letter has Been forwarded to
the Dept, asserting our agreement to this
request.
Council Baldwin was then asked
for his report as to the Cost of having
Pump houses erected.
His report was as follows. Saunders, Howell
& Co.

Made an offer for $700.00 each house
Mr. Jas. E. Clarke offered for $700.00
two Carpenters, Viz:- Mr. John Slade &
Mr. Geo. W. Rossiter offered to Build a
House for Antle's Area Well @ $2.00 an
hour. Collectively decided that
the hiring for these houses would be
left to the discretion of Cr. Jas. Mahoney
& C. Baldwin; They decided that
Mr. Slade & Mr. Rossiter would Be
hired for 1st Pumphouse on trial
basis.
Cr. C. Baldwin was then asked what
Mr. J. Tucker Charged per ft to
drill an A Well. He informed Council
that Mr. Tucker was Charging $2.50 per
ft more than W. Howell, So he was not
Considered.
Councillor Deering then Made known
a grievance in that he had been
told that a Well would not Be
drilled in his Area because he was a
member of Council. This was proved
to Be just an idle rumour, & was
decided to Be ignored. A Well would
definitely Be dug in Mr Deerings Area &
in fact is presently in operation.
Correspondence for the evening was then
read to Council.
It Consisted of two more petitions for
Wells & assistance of Council asked for
to have Whites' lane plowed.
All letters were replied to As per usual.
A Complaint was voiced that a Certain
resident of the town (a Mr Hancock)
had left a parked vehicle in the
path of the plow thereby obstructing
Road clearing. Upon investigation,

it was learned that Vehicle had Been removed from Road & Parked in owner's yard.
Counc. Deering then reported his Concern of the Condition roads were in after Plow had gone through. Some places the Bus had to turn there from 1 - 2 ft of Snow.
The Mayor instructed that Mr. G. Barrett of the Highways Dept. be written Concerning this & ask that it Be remedied. This has Been done & Mr. Barrett has personally visited this office & assured us that the Plow Operator would Be Asked to have the Bus Route properly Cleared. He further added that we should feel free to Call him Concerning any problems that may arise.
The idea of Notifying all existing fuel Suppliers in the Area of our Tax imposition was then shortly discussed & deferred until proper assent from the Dept. Counc. H. Deering then moved that Messrs. Saunders & Howell Be hired to do remaining Wells, keeping their rate as presently Being paid & hiring local men.
This was seconded By Counc J. Mahaney, Others agreed & Motion Was Carried.
This Amounted to the fact that Mr Potters Services would not Be required after Completing Well now employed on.

?

3rd Groups Mr Tom Powell & G. Baldwin

3rd Groups presented a petition for Well in Area, Mr Tom Powell Acted as Spokesman & Stated one of the Chief reasons he requested a well was due to the fact that he planned to Convert his Building into Six Apartments & an Available Water Supply would Be an Asset for this undertaking.
